(October 4, 2014)

Big Data Challenges Workshop

Organized by CBA & Bayhelix

Date & Time: Tuesday, May 6, 2014, 5:30 pm – 8:30 pm

Location: Morrison Foerster, 755 Page Mill Road, Palo Alto, CA

Speakers: Dr. Bruce Ling, Stanford University; Dr. Howard Ho, IBM; & Dr. Licen Xu, ThermoFisher Scientific

Description:

High throughput “OMICS” technologies including next generation sequencing (NGS) have become essential tools for a wide range of biotech research and enable the study of genomic changes with high resolution. However, the challenge of managing and analyzing the Big Data generated from NGS are far from having a satisfactory solution. The goal of this workshop is to facilitate discussions with the experts how to address these challenges.

Free drinks & appetizers

Active CBA members or Bayhelix members: Free if register online / \$5 for onsite registration

Non-CBA members: \$10 if register online / \$15 for onsite registration
